

Swaraj Nath

Senior Software Engineer - Frontend | AI-Native Frontend Developer

Frontend engineer with 5+ years in fintech, building AI-native products at the intersection of React/Next.js engineering and applied GenAI. Ship secure, production-grade UIs (JWT, RBAC, OWASP) and design agentic, tool-calling LLM systems using LangChain, OpenAI, Claude, and Ollama. Comfortable using AI coding assistants (Claude, Copilot/Cursor-style workflows) to accelerate delivery, alongside strong API integration, automated testing (Jest, Cypress), and Agile team mentoring.

SKILLS

AI / GenAI (AI-Native Dev): LangChain • OpenAI • Claude • Ollama • Agentic Architecture • Tool-Calling • Prompt Engineering • AI Coding Assistants

Frontend: React.js • Next.js • React Router • Redux Toolkit • Tailwind • TypeScript • JavaScript

Backend / DevOps: Node.js • Express • MongoDB • Redis • AWS • Docker • Jenkins • Python

Testing & Tools: Jest • Cypress • Git • Jira • HighCharts

WORK EXPERIENCE

Senior Software Engineer - Frontend

Keenai Global 01/2022 – Present | Bangalore, Karnataka

- Built and shipped fintech dashboards using **Next.js, Redux Toolkit, and Tailwind CSS**, improving load times by 40% through SSR/ISR optimization.
- Designed and delivered a GenAI-powered, **AI-native** chatbot using **LangChain, OpenAI, and Ollama** with agentic tool-calling, reducing client inquiry response time by over 60%.
- Strengthened platform security with **JWT-based auth, RBAC, and OWASP compliance**, decreasing vulnerability incidents by 80%.
- Mentored 4+ junior developers, led sprint planning, and improved delivery velocity by 30% through **Agile best practices**, consistent code reviews, and AI-assisted development workflows (Claude, Copilot/Cursor-style tooling) to speed up prototyping and code review.
- Wrote and maintained automated test suites with **Jest and Cypress**, improving release confidence and cutting regression bugs in core dashboard flows.

Software Engineer – Frontend

Ripplr 02/2021 – 01/2022 | Bangalore, Karnataka

- Implemented a secure, end-to-end reconciliation system with **file upload, data parsing, and auto-matching logic** between internal and bank records using Django and React.js, reducing manual effort and reconciliation time by over 60%.
- Built a real-time delivery tracking and management app using **React.js**, featuring order assignment, status updates, and geolocation tracking, improving dispatch efficiency and reducing delivery delays by 40%.

MAJOR PROJECTS

AI-Powered Portfolio Assistant (08/2024 – 02/2025)

Tech Stack: Next.js, Tailwind CSS, Headless UI, Node.js, Express, OpenAI, Ollama, Agno

- Designed and developed an **AI-native Gen AI chat assistant** performing tool-calling over live portfolio data with an agentic architecture for contextual financial conversations.
- Integrated OpenAI and Ollama LLMs via LangChain-style orchestration, enabling real-time, personalized interactions with secure backend processing — cutting manual query resolution time by ~50%.

Family Office & Back-Office Platform (02/2023 – Present)

Tech Stack: React.js, Tailwind CSS, Ant Design, React Router DOM, React Query

- Built a hierarchical structure manager using **React Flow** with drag-drop UI and real-time relationship mapping.
- Developed a role-based CMS dashboard for back-office teams to manage entities, relationships, and compliance data via optimized React Query API integration.

Relations Portfolio Analysis (08/2022 – Present)

Tech Stack: React.js, Bootstrap, React Router DOM, React Hook Form

- Built portfolio forms, charts, and a CMS using React, Bootstrap, and React Hook Form for banker-client communication and financial content publishing.

EDUCATION

Mechanical Engineering (BTech)

Padmashree Kruthartha Acharya College, Bargarh, Odisha
2014 – 2018 | 7.82 CGPA in Mechanical Engineering

ACHIEVEMENTS

IIT Madras – Ethical Hacking Competition (2017)

Cleared qualifier round of the Coding Championship at IIT Madras. Secured 3rd Rank in Ethical Hacking Competition at Silicon Institute, Sambalpur.

INTERESTS

Gaming Design/Development • Badminton • Photography
